

# Job Description: AI/ML Intern

Company: NovaTech Solutions | Location: Bengaluru (Hybrid) | Duration: 6 months

## About the Role

We are looking for an AI/ML Intern to join our data science team. The intern will work on building, training, and deploying machine learning models, and collaborate with engineers to bring models into production.

## Required Skills

Python, Machine Learning, PyTorch, Deep Learning, SQL, Data Structures, Git

## Preferred Skills

Docker, Linux, AWS, NLP, Computer Vision, REST APIs

## Responsibilities

- Build and train ML models using PyTorch
- Clean and preprocess large datasets
- Write production-quality Python code
- Collaborate with engineers on model deployment
- Document experiments and results

## Qualifications

Pursuing or completed a degree in Computer Science, AI, or related field. Strong problem-solving skills and a passion for AI.
